THE PROBLEM

YOU DON'T NEED THIS EXPLAINED TO YOU

THE FATIGUE THAT SLEEP DOESN'T TOUCH

You sleep seven hours. Maybe eight. You still wake up tired. Not "I stayed up too late" tired — the bone-deep kind that sits behind your eyes and doesn't lift by noon. You've tried going to bed earlier, cutting alcohol, buying the expensive pillow. Nothing moves the needle.

THE FOG THAT MAKES YOU QUESTION YOURSELF

You walked into a room and forgot why. You lost a word mid-sentence — a word you've used a thousand times. You re-read the same paragraph three times. This isn't absent-mindedness. This is new. And it's disorienting in a way that nobody around you seems to take seriously.

THE SUPPLEMENT SHELF THAT KEEPS GROWING

Magnesium for sleep, calcium for bones, Vitamin D because your doctor said so. Biotin for your hair. A probiotic. A B-complex. That's seven bottles before you even get to the adaptogens. You're spending \$150 a month and you still don't feel like any of it is working together. Because it isn't.

✓ 23M+ servings worldwide

✓ Clinically proven in 12-week RCT

✓ NSF Certified for Sport

THE SHIFT

MENOPAUSE ISN'T A DISEASE BUT IT CHANGES WHAT YOU NEED

Estrogen decline doesn't just cause the changes you feel. It shifts how your body absorbs calcium, produces collagen, regulates sleep, maintains bone density, and supports cognitive function. These are nutritional gaps. And they're widening.

IM8 doesn't claim to address menopause itself. It provides the nutritional foundation that many women find themselves missing during this transition.

CHOSEN BY WORLD NO. 1 HORMONAL DISORDERS

WORLD-CLASS SCIENTISTS

NSF CERTIFIED FOR SPORT

TRUSTED BY THE BEST

THEY DON'T JUST ENDORSE IT. THEY USE IT.

"The PRO formulation isn't just an update, it's an evolution. By upgrading to bioactive forms like PIP and significantly increasing key dosages like B12 and Vitamin D, we are delivering a level of cellular support that is rarely seen in a single product. This is clinical-grade nutrition, optimized for real-world performance."

DR. DAWN RUSSELL
CMD of Founthin Life & Founder, Mayo Clinic Integrative Breast Oncology Program

"As a physician who specializes in nutritional health, I recommend IM8 because it addresses so many foundational aspects of wellness in one science-backed formula."

DR. ARYNA SHABARIN
Double-Board Certified Physician, Host of "Save Yourself"

"As a nutritionist, I'm always skeptical of wellness claims. But IM8 impressed me with its clinical dosages and science-backed approach. It's become my daily morning routine."

KIANA SHABARIN
Celebrity Nutritionist

STRESS & MOOD

BRAIN & COGNITIVE FUNCTION

Brain fog during menopause is one of the most distressing and least-discussed experiences of hormonal transition. It's not just forgetting things! It affects your confidence, your work, your sense of self. Estrogen influences neurotransmitter production — and when it fluctuates, so does cognitive clarity. IM8 contains B12 (200mcg Methylcobalamin) for neurological function, Saffron (30mg) for focus and mental clarity, and Choline (55mg) to support brain cell membrane integrity. In IM8's clinical trial, 75% of participants felt sharper focus and mental clarity.

THE SOLUTION

WHAT'S INSIDE SPECIFIC TO WHAT YOU NEED NOW

Out of 90 ingredients in IM8 Essentials Pro, these are the ones most relevant to what your body is asking for during hormonal transitions.

01

D3 + K2

D3 2500% DV • K2 100mcg MK-7

The bone density pairing, D3 drives calcium absorption. K2 directs it into bones, not arteries. This combination is one of the most well-researched nutritional strategies for supporting bone health during hormonal transitions.

02

COQ10

100mcg clinical dose

Mitochondrial energy production declines with age and hormonal shifts. CoQ10 is a required cofactor for the electron transport chain — the first step in ATP synthesis. At 100mcg, this is a clinical dose, not a token amount.

03

MAGNESIUM BISGLYCINATE

100mcg chelated form

Involved in 300+ enzymatic reactions including ATP production and sleep regulation. The magnesium bisglycinate form was chosen for superior absorption and calming properties — no laxative effect.

04

SAFFRON EXTRACT

30mcg clinical dose

At 30mcg clinical dose, saffron has been shown to improve mood, reduce fatigue, and support healthy sleep-wake cycles. Peer-reviewed research supports its role in emotional well-being during hormonal transitions.

05

MSM

1,500mcg clinical dose

Methylsulfonylmethane at clinical dose supports joint comfort and collagen production. Addresses the joint stiffness and connective tissue changes that accelerate during perimenopause and menopause.

06

B12

200mcg Methylcobalamin

The bioactive form your body can use immediately — not cyanocobalamin, which requires conversion. Supports neurological function, energy metabolism, and the cognitive clarity that hormonal shifts can compromise.

07

PROBIOTICS + FLORASMAT®

10B CFU • Digestive Enzyme Blend

A complete 4-fer gut protocol: prebiotics, probiotics, postbiotics, and digestive enzymes. Hormonal shifts affect gut motility and microbiome composition — this protocol ensures nutrient absorption actually works.

08

RHODIOLA + AMERICAN GINSENG

Adaptogen complex

Adaptogens that help normalize your stress response. Not sedatives — they support your body's ability to react proportionally to stress instead of running in cortisol-driven overdrive.

09

VITAMIN C + ZINC + SELENIUM

C 1000% DV, Zinc 180% DV

Immune and antioxidant support. Vitamin C at therapeutic dose supports collagen synthesis and immune function. Zinc and selenium provide additional antioxidant protection during periods of increased oxidative stress.

REAL RESULTS

TRUSTED BY ATHLETES, DOCTORS & EVERYDAY PERFORMERS

Ambassadors, influencers, scientists & real customers share their life experiences.

"I'm so happy I found this product! I feel so much better, I am happy and I feel strong every day. I do more sports and I sleep better. I immediately recommended it to my family and my best friend!"

★★★★★

Verified on Trustpilot

"This has been the most life-changing supplement I've ever taken. It's not just about energy and vitality. My voice sounds different, I walk tall and feel different. It's affecting my bottom line — I can now seize opportunities as they present themselves."

★★★★★

Verified on Trustpilot

"Since I started this a month ago I have felt great, energized, and sleeping better. I have taken a lot of vitamins and am hopeful this will replace most of them."

★★★★★

Verified on Trustpilot

"After seeing an advertisement for IM8, I decided to give it a try. I have now been using it for four months, and the results are remarkable. Even though I am 60 years old, I feel 20 years younger. My Heart Rate Variability (HRV) is finally on an upward trend again!"

★★★★★

Verified on Trustpilot

"I feel a difference in my energy and haven't been sick this entire winter yet. I'll be using this product for life. It has everything your body needs and the B vitamins are methylated which I need due to my genetic issue. It's worth the cost especially as I approach 50!"

★★★★★

Verified on Trustpilot

"As a performance coach, I'm always seeking ways to stay sharp and energized. IM8 is hands down the best all-in-one supplement. It tastes amazing—it's a game-changer."

Frequently Asked Questions

Is this a menopause supplement?

No, IM8 is a comprehensive daily nutritional supplement with 90 clinically dosed ingredients. It wasn't formulated specifically for menopause, and it doesn't claim to treat or manage menopausal symptoms. What it does is provide broad nutritional support across energy, bone health, sleep, brain function, gut health, joints, skin, and immune function — areas where nutritional needs shift during hormonal transitions. Many women going through perimenopause and menopause find it valuable because it fills the nutrient gaps that widen during this time.

Does this contain estrogen or phytoestrogens?

No.

I already take 8-10 supplements. Can this actually replace all of them?

Yes.

How fast will I feel a difference?

Most people notice improvements within 30 days.

Is this safe alongside HRT?

Yes.

Who formulated this?

Dr. Dawn Russell, Dr. James L. Green, Dr. Aryna Shabarin, and Dr. Dardash Shah.

What if it doesn't work for me?

Full 90-day money-back guarantee.
